whipping cream,
and much more...

Whipped cream
machine

Whipped cream and more... >

Whipped cream, delicious product made from mixing cream and air, is pleasant to be enjoyed both as a topping or filling for cakes and gelato cups, and as a decoration for delicious pastry specialties.

Thanks to the flexible and versatile Carpigiani whipped cream machines, in addition to these traditional applications you can expand your product range by adding innovative and creative recipes. With simplicity and speed it will be possible to produce **SEMIFREDDOS** and **SWEET AND SAVORY MOUSSES** of exquisite class, harmoniously blending a wide range of flavors.

OPTIONAL FOR ALL MODELS

Nozzle kit with nozzles of different sizes and shapes, in stainless steel like a pastry bag and plastic. Decorating has never been so easy.

OPTIONAL FOR JETWIP/G

Foot pedal to free up the operator's hands while using the whipped cream machine.

> Performance

The **Carpigiani patented texturizer** increases collisions among fat molecules, and the pump incorporates air to make a perfect whipped cream and other products.

Thanks to the **pump** it is possible to adjust the air/product mix to whip cream, non-dairy cream, and more.

> Convenience

Tank drain connects directly to the outside for easy drainage and cleaning.

High-capacity **pump**, easily removable without tools for quick cleaning.

> Hygiene

Refrigerated **dispensing system** all the way up to the outlet, in special material to prevent condensation, guaranteeing maximum production and storage hygiene.

Drip collector can also be used as hygienic dispenser protection when the machine is not in use.

Ecowip/G

Perfect for cafés and cafeterias. Equipped with variable portion command.

Miniwip/G

Designed for use in gelato shops, pastry shops, and restaurants. Command for variable or continuous portions.

Masterwip/G

Perfect for high frequency use in gelato and pastry shops. Electronic machine with high level of production autonomy. Command for dispensing variable, continuous, and timed portions.

Jetwip/G

High-performance electronic whipped cream machine. Command for dispensing variable, continuous, and timed portions. Includes jack for foot pedal.

Carpigiani Care kit: request it from your dealer to always keep your machine hygienically perfect.

Technical Specifications

	Pump	Hourly Output*		Tank capacity liters	Nominal power kW	Fuse A	Power supply			Size cm at the base					Net weight kg
		kg	liters**				Volts	Hz	Ph	A	B	C	D	E	
Ecowip/G	Blades	35	105	2	0,5	10	220-230	50/60	1	45	37	53	52	22	23
Miniwip/G	Gears	50	150	2	0,9	10	220-240	50/60	1	45	37	53	52	22	28
